

Joanne is having a hard time decorating her house, with her son tell her that her decorations are lame.

With our app Joanne is able to make room designs from her phone and make sure they look good

Joanne heard about our app from one of her coworkers and how it can help her plan decoration layouts before actually buying the decorations.

Joanne is also able to use our app to make orders of the decorations that she used in her online design for ease of comfort.

After some time Joanne's decorations arrived in the mail.

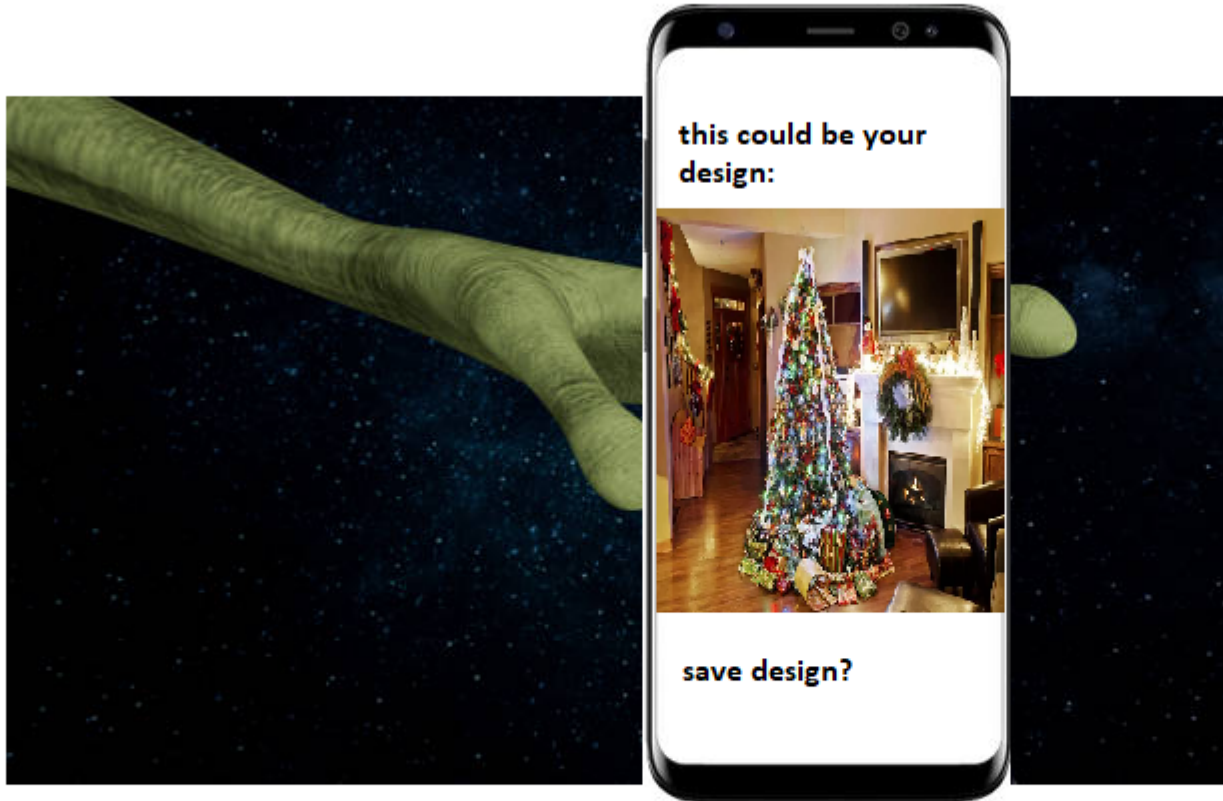

After using our app to decorate her house, Joanne had a great success with her Christmass decorating.

wow! These must be the
decorations I ordered!!
I can't wait to decorate!
